

FITZGERALD CHOSEN GRAND CHIEF RANGER

New Hampshire Foresters
Meet at Manchester With
Large Attendance.

Manchester, N. H., May 20.—The Grand Court of New Hampshire Foresters of America, opened its State convention today. Mayor Charles C. Hayes extended a welcome to the visitors.

Others speakers of the morning session were Grand Chief Ranger M. J. Dugan, Senior Beadle, P. J. Kennedy, Past Chief Ranger F. D. King of Newport, Dr. Thomas A. McCarthy and Superintendent Reg. T. M. Donnelly of Jersey City.

Reports of the officers were read and accepted. That of Grand Treasurer E. P. Brooks was particularly gratifying. It showed that the receipts for the term ending May 20 were \$6090.01 and the expenditures \$4471.37, leaving a balance in the treasury of \$1618.64.

The report of the membership committee showed that there are now enrolled members to the number of 4620, making a net gain over one year ago of 137.

A communication was received from Supreme Chief Ranger Harry W. Mace congratulating the court of the state upon its successful term.

At the afternoon session the following officers were elected: John Fitzgerald of Wilton, grand chief ranger; Frank N. Tucker of Claremont, sub-grand chief ranger; Fred Brooks of Concord, grand treasurer; Peter Callaghan of Keene, grand secretary; Dr. James Smith of Manchester, grand recording secretary; James Bonicelli of Newport, senior warden; Albert Janze, junior warden; Maurice Purcell, senior beadle; Thomas Manderson, junior beadle; James Daniels, Thomas Smith, Patrick J. Shea, trustees; Michael J. Dugan of Manchester, James H. Glynn of Nashua, John Leary of Nashua, John A. Ryan and P. J. Gilmore of Manchester, delegates to international convention.

This evening there was a banquet in Udd Fellows' hall over which Past Grand Chief Ranger M. J. Dugan presided.

CUP RACE IN SEPTEMBER

Lipton's Challenge for the American
Cup is Accepted and His Boat
Will be a 75 Footer

London, May, 20.—The New York Yacht Club today cabled to the Royal Ulster Yacht Club, definitely accepting Sir Thomas Lipton's challenge for the American cup.

The races will take place in September, 1914 under the New York Yacht Club's present rules as to measurement, time allowance, and racing rules.

The New York Yacht Club in its acceptance of the challenge says: "The races are to be sailed as suggested in your cable under our present rules of measurement, time allowance and racing rules, it being understood that the rule requiring a yacht to race at the highest limit of her class in certain cases shall not apply to this match."

Sir Thomas considers that the conditions of acceptance of his challenge by the New York Yacht Club are a great victory for him. He says they will enable him to build a good seaworthy boat.

There are he says a few small details yet unsettled but he feels sure that they will be arranged satisfactorily.

Of these difficulties is the question of whether Sir Thomas will be allowed to tow his yacht across the Atlantic. As to this Sir Thomas said he feels sure that the members of the New York Yacht Club will do everything that is right in the way of granting this concession, but he continued:

"As they have decided upon a good class of boat, it does not really matter much whether I am allowed to tow or not. Anyway, I should not want to tow except in the case of a head wind, or a calm."

Asked whether he thought the defenders would meet him with a bigger boat, than the challenger, Sir Thomas replied:

"That does not give me the least worry. They have already treated me in the most generous and sportsmanlike spirit. The difficulty has always been that of arranging a match. Once this was settled they have always done everything possible to make it pleasant for me."

Charles E. Nichols, the yacht designer of Gosport, Eng., is already working on the plans of the boat.

"That challenger said Mr. Nichols will be a 75 footer on the water line and built under the present New York Club rules. The size was already fixed upon by Sir Thomas Lipton because in his challenge he suggested racing under the same measurement rule as in the last contest, and thought that with the extreme type produced under that rule, having an enormous sail area, a 75 footer was large enough."

In acknowledging the challenge the New York Yacht Club apparently did not understand Sir Thomas' meaning, because they asked whether he intended to race under the old rules. Sir Thomas replied: "Gentlemen: I challenge you; you choose the weapons," and said that he intended to race under the old rules but if the New York Yacht Club intended to race under then own ones he was quite willing.

"As this, however, was really altering what he intended to be the terms of the challenge, I advised him that there was no longer any necessity."

LEGISLATORS "SCRAPPING"

Republicans and Democrats Try to Break
Quorum

Doors and Windows Locked
and Members Arrested
and Hushed Back

(Special to The Herald)

Concord, May 21.—There was something doing in the legislature this morning and it has been one continual scrap from the convening this morning up to recess time this afternoon. During the debate upon the police commission bill a number of republicans and democrats marched out, causing a quorum claim. The speaker ordered all doors locked and the sergeant-at-arms and assistants were ordered to arrest all members outside and at the hotels. In about a half hour a number were marched in until a quorum was counted and then business proceeded. At 1.30 it was impossible to ascertain just what was going on behind the closed doors as no one was permitted to enter or leave.

The only business of importance done at the session was the abolishing of the present board of license commissioners, a new commission to be appointed by the governor. The bill also provides that hereafter the special agents of the board instead of being appointed by the commission shall be appointed by the governor and council. The attorney general will act as the prosecuting officer of the board. The license laws are modified so as to allow a holder of a first class license to sell by either bottle or in jug.

NO RUSH ORDERS

For Any of the Vessels at the
Navy Yard.

Rumors in New York on Thursday had it that the U. S. S. San Francisco had received hurried orders to depart from the navy yard for the west coast, and that all members of the crew who had been furloughed were called back on duty. Captain Rogers replying to telegrams from certain New York papers denied very strongly that there had been hurried orders for the San Francisco or any other vessel now at the yard to sail under hurried orders. He expects that none of the vessels will depart from the station before the time set for them in the regular schedule of the bureau of navigation.

WILL IMPROVE

Market Square, Market Street,
Ladd and High Streets.

The Board of Public Works are to make some fine improvements in the way of sidewalks in the business section of the city, part of which has already been started. The board has planned to put in granite paving on Market Square, Market street, Ladd street to High street to Market Square. In addition to this the board will ask for the removal of all poles and wires on High street to be done as soon as possible by the several companies controlling the same.

DIES AT HOSPITAL.

Woman Horribly Burned on
Tuesday Relieved From
Her Sufferings.

Mrs. Susan Dowdall then unfortunate woman who was horribly burned at her residence on Coas street, on Tuesday, died this morning at 2.30 at the Portsmouth Hospital.

THE WEATHER

Washington, May 20.—For New England: Fair Wednesday; Thursday showers; moderate variable winds. Local forecast for Portsmouth and vicinity: Wednesday fair; light variable winds; Thursday local showers; warmer.

Any time you want to take a drive just telephone 2, and Hissop will do the rest.
H.C. it

MADE WITNESS FOR THE STATE

Collins Admits Planting Dynamite in
Lawrence at Breen's Order

Boston, May 21.—John J. Breen, the former Lawrence school committee man, who was found guilty in July of last year and fined \$500 for conspiracy to plant dynamite during the big textile strike in Lawrence, will be called as a witness today for the government in the trial of William Wood, Frederick E. Atteaux and Dennis J. Collins, who are charged with conspiracy to plant dynamite in order to influence public opinion against the strikers.

The government contends that Breen acted with the knowledge of Wood, Atteaux and Collins. The latter a Cambridge dog raiser, turned state's evidence during yesterday's session of the trial and admitted planting the dynamite. Collins testified that he was hired by Breen and received \$50. He denied that he had been promised immunity in return for his testimony.

Under direct examination by Dist. Atty. Pelletier, Collins said that he had told the district attorney during a conference in the latter's office a few days ago that Breen had said that

Mr. Wood, president of the American Woolen company, and other mill men were back of him.

Fight Admission of Testimony
The admission of this testimony was bitterly fought by Attorney Henry F. Hurthall, counsel for Wood. A dynamite expert who examined the explosive which the defendants are alleged to have conspired to plant, will be the first witness produced today by the government. He will testify relative to the power and quality of the dynamite in question.

Breen figured in most of the testimony offered yesterday. Police Inspector Clinton Voss of the Lawrence police the last witness yesterday afternoon testified that he began to suspect Breen, who is a Lawrence Undertaker, on the evening of the day the dynamite was found, because of Breen's insistence that dynamite was in a place that had been searched twice without result.

Under direct examination by the Dist. Atty. Inspector Voss told of go-

(Continued on Page Seven.)

JOHN KIVEL NAMED FOR SUPERIOR BENCH

Well Known Resident of
Dover Will Qualify on
May 26.

Concord, N. H., May 20.—At the meeting of the Governor and council today, Hon. John M. Kivel, of Dover of the Board of License Commissioners was confirmed as judge of the superior court, to fill the vacancy caused by the death of Judge John M. Mitchell.

Judge Kivel was born in Dover, April 29, 1855. He was graduated from the Dover high school in 1871 and from Dartmouth College in the class of 1876. He then studied law and was admitted to the bar in 1879. In 1887 he was elected solicitor of Strafford county, which position he held until 1895.

During his term he figured in the prosecution of Isaac B. Sawtelle for the murder of his brother in Rochester, until Sawtelle committed suicide in his cell at the old state prison, Dec. 26, 1891, on the eve of his execution.

He was appointed a member of the board of license commissioners on April 1, 1903, and has held the office to the present time, his last appointment having been by Governor Bass, July 5, 1910. He is also a member of the Board of Police Commissioners of the city of Dover.

He will tender his resignation of both positions to the Governor on Monday, May 26, at which time he will qualify for his place on the bench.

The Governor appointed three medical referees to replace those legislated out of office by the revision of the Referee law as follows: Merrimack County, Dr. Chaney Adams, Concord; Grafton County, Dr. Percy Littlell, Hanover; Cheshire County, Dr. Frank N. Blumner, Keene.

The Governor nominated Dr. George V. Pike of Manchester for promotion to captain and Dr. Henry S. Beckford of Laconia for promotion to First Lieut. in the Medical Corps of the National Guard.

MEMORIAL NIGHT.

Strawberry Bank Grange Will
Observe the Same on
Thursday Evening.

The regular meeting of Strawberry Bank Grange on Thursday evening will be observed as Memorial night. The following program has been arranged by the lecture Mrs. Charles W. Taylor: Song by the Grange; prayer by chaplain; vocal selections by Mrs. Al-

AUTOMOBILE COLLIDES WITH TELEGRAPH POLE

Four Men Are Injured in Accident on Woodbury Avenue.

Shortly after 1 o'clock today a Ford touring car with a Massachusetts license number, 30832, containing Mr. Frank Jones of Hampton, owner, and three other men crashed into a telephone pole on Woodbury avenue near the residence of Thomas Flynn. The machine was a total wreck and when stopped the pole was broken completely off and the rear of the machine swung up against the butt. The four passengers were thrown out on the side of the road and more or less injured.

The owner, who was driving the car, sustained the most serious injuries. Mr. Flynn who saw the accident and Dr. Stiles of the Stiles Institute, hurried to their assistance after sending in a call for the ambulance. The four were hurried to the Portsmouth hospital where Dr. J. C. Curry was called.

It is reported that the driver lost control of the car, which was moving at a lively pace when the accident occurred.

At the hospital none of the injuries are reported serious and the parties will not be detained there.

The crash with the pole slightly interrupted the telephone service between this city and Dover. The car was on its way from Dover.

IN BOSTON HOSPITAL

John Quinn of Hill street who was injured in the railroad yard last week in jumping from a west bound passenger train, went to the Massachusetts General Hospital at Boston today for a surgical operation.

KNIGHTS DEFEAT THE P. A. C. IN FAST GAME

A Pitchers' Battle With But Little Hitting--Wild Pitches Score Winning Runs.

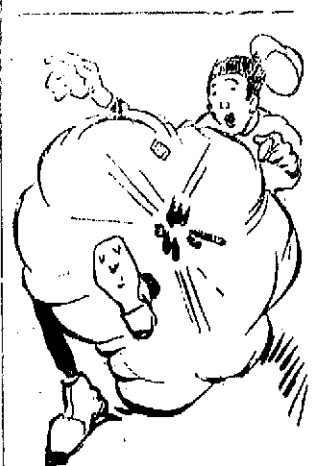

The K. of C. defeated the P. A. C. in the Sunset League Tuesday evening, before an even larger crowd than the opening night. It was a pitchers' battle with McPheters handing out the game to the K. C. in the fourth inning, when after Heffernan hit for a single, Kelley was walked and two wild pitches gave the necessary two runs. Up to this McPheters had pitched a very fine game but he had a wild streak which was very costly.

The Knights of Columbus appeared with considerable change in their line up from last season. Lafeau of Dover caught and McCrara was in the box and in him the Knights appear to have a real find. He is a heady pitcher who fooled the heavy hitting P. A. C. in fine shape, striking out George Woods twice, which in a game is out of the ordinary. In the second inning he had four strikes out Lafeau dropping the ball in the first two and failing to get his man in the second strike out, McCrara is captain of the team this year and he looks as good from the start as Jim Travers, their last years boxman. Bretwistle at first and Riney at short are also new faces, the former playing a very good game.

The P. A. C. presented in the main the same team as last year. Bill Brackett is playing third and George McPheters pitched, while Frank Newick of last years Elks covered second. McPheters pitched a very good game up to the fourth when he apparently was a little nervous and was unable to find the plate. He received good support from Weare who

caught a good game and Bill Brackett played a fast game at third, making one sensational catch of a high foul which he took just off the end of the players' bench. Ira Newick who is covering the initial sack and captain played his usual good game and walked the ball for a long drive over O'Brien's head for three bases, the first time up.

The P. A. C. got their run in the first. George Woods hit for a single

Did it Look Like Mac?

and took second on a passed ball and scored on his Newick's long drive over O'Brien's head. They were never again in any great danger of scoring.

Yamada, the Jap, Expects to Win World's 18.2 Billiard Title from Willie Hoppe

New York, May 21.—Koji Yamada, the Japanese expert will play Willie Hoppe for the 18.2 billiard championship in New York, May 27. The contest promises to be unusually interesting. Both of the principals are brilliant exponents of the billiard and handles of both the billiards Hoppe is the more resourceful, Yamada the more spectacular. While the champion gathers cucumbers all over the

table, the oriental confines his operations as far as possible to the ends of the table, while he executes draws, drives and mass shots with either hand with equal facility. In the tournament for the world's championship last November Yamada was the only player who scored a victory over Hoppe, a feat that was accomplished by the margin of three points, the totals being 500 to 487.

The Knights got a man in second in the second but McPheters fanned the next three men up. They scored their runs in the fourth. After McCrara had been retired Heffernan hit over second for single and was advanced on Kelley being passed. A wild pitch advanced them a base and Mates drive to P. Newick who fumbled but recovered in time to get Mates at first scored Heffernan. Another wild pitch and Kelley scored.

FIRST INNING
The P. A. C. were up. George Woods hit for a single and took second on a short tossed ball. Brackett was out on a fly to Bretwistle which looked as though it hit the plate first. McPheters was called out on strikes. Ira Newick connected for a long drive into left which netted three bases and Woods scored. Weare fled out to Reardon.

O'Brien hit to Brackett who made a pretty stop and got his man at first. Heardon hit for three bases to center. Lafeau fanned on McCrara's offering a high fly was nailed by Brackett.

SECOND INNING
Bill Woods fanned and Lafeau dropped the ball but caught his man at first. Locke fanned and when Lafeau dropped the ball it rolled foul and Locke kicked it on his way to the base and was safe. Frank Newick and Mattison fanned.

Heffernan singled over second. Newick went out to assist in getting the ball and Brackett seeing the K. C. coach at first who was out of his box threw to him and Heffernan went to second. Kelley, Mates and Bretwistle struck out.

THIRD INNING
George Woods fanned. Brackett hit a high fly that Heffernan was under. McPheters was safe on Weare's error, stole second and was thrown out trying to steal third.

The Knights got one man on. Riney was safe on Mattison allowing the ball to get through him and he stole second. Weare's throw being high, O'Brien struck out. Heardon hit to Mattison who turned and caught Riney off second and Lafeau struck out.

FOURTH INNING
Ira Newick hit over first but Bretwistle got it and fell but held on to the ball. Weare struck out. Bill Woods hit through McCrara and Reardon hit it through his legs. Locke struck out and Lafeau dropped the ball but caught Sherry at first.

The Knights scored two runs as already described.

FIFTH INNING
P. Newick struck out. Mattison hit a high fly over short which Riney was under and George Woods for the second time fanned. The score:

THE 12th ANNUAL MEETING OF THE NEW HAMPSHIRE HOME MISSIONARY SOCIETY

The meeting was held in Nashua, May 21 in connection with the annual meeting of the general conference of Congregational churches.

This society is the accredited agency of the New Hampshire Congregational churches for helping the feeble churches of the conference. The year's report shows that the affairs of the society are in an unusually good condition. The treasurer, Hon. Alvin P. Cross, reports \$1810 expended in appropriations to feeble churches.

About \$3000 was received from the New Hampshire churches in support of this work. Another source of income was the contributions of the New Hampshire Cent Union. Other sources of income are invested funds and legacies.

The legacy list for the past year included bequests by the late Caroline M. Martin, Dover; Stephen C. Damon, Bedford; Mary P. McFarland, Concord; Henry A. Roberts, Wakefield; Mary A. Bradley, Goffstown. The total amount received in these bequests was \$22,553. The number of churches aided in the support of preaching, by grants from the society was 26. In addition work was carried on in 13 missions. Three foreign missionaries are employed among Finns and Armenians. The secretary journeyed 15,000 miles in the course of his ministry at large among the churches. The improvement of church property includes a new parish house at West Stewartstown; extensive repairs at Barre; renovations and re-dedication at South Barnstead and North Weare; renovation at Washington, Deering, Bradford Center, Dalton; parsonages built at Charlestown and purchased at Surry.

The total number of families in these parishes exceeds 8000. The missionaries of the society made between 14,000 and 12,000 pastoral calls. One of the new features of the work was a convention at Concord last February which gathered together 60 Congregational pastors, one half of whom were from the missionary churches. In twelve cases the salaries paid by missionary churches have been increased.

AND STREETS FOR
SUMMER TRAVEL

The Board of Public Works street department is making rapid headway oiling the roads and streets. The Lafayette road, for the entire distance, has been oiled and this was done by one of the Standard Oil Co's big auto truck sprinklers. This machine made expressly for this work, carries 700 gallons of oil and spreads it under pressure. Two car loads were used on this road and with the aid of this machine the work was done better than with the horse drawn sprinkler. This machine will now complete the oiling of the South and Greenland roads.

In the meanwhile the city's sprinkler has been laying a heavier grade of tar on the stretch of upper Middle street, Rogers street and Manay street have also been given a treatment of this oil. When covered with sand it makes a hard surface which stands up well under automobile travel.

A much lighter grade of dust laying oil will be used on the streets wherever it will be possible, with the money available.

Middle street, which has been in a deplorable condition, is receiving much needed attention. The upper part of the street from Cuss street to Lincoln avenue is being built up with gravel and this will be rolled and oiled. The section from Congress to Cash street is being picked up by the

road roller and a top surface of fine crushed stone will be spread and the entire surface tarred with the tar via heavy oil and top of sand. No extensive work will be done at this time but the street will be put in fairly good condition for travel and at a moderate expense.

The work on the state road from the end of the Sogamore bridge to the Eye line will be started next Monday and this will not be a very long job, and should be finished before the summer travel starts.

CRUISER TO TEST ALASKAN COAL.

Final tests to determine the value of Alaskan coal to the navy will be made by the cruiser Maryland during the present summer, according to officers who testified yesterday before the Senate Territories Committee. Lieutenant Commander David P. Boyd of the Bureau of Steam Engineers told the Committee that incomplete tests of coal from the Barling River fields indicated that it was high grade and might prove valuable for naval purposes. Paymaster John S. Higgins said the Government paid \$3 a ton for coal on board colliers at Norfolk and Baltimore and that delivered on Pacific Coast points, Hawaii or the Philippines, it cost between \$7.50 and \$8.25 per ton. About 250,000 tons per year are sent to the Pacific, he said. Most of it is transported in British bottoms, unavailable in time of war, unless chartered before hostilities began. The whole American commercial fleet would be needed, with a consequent paralyzing of industry, the paymaster testified, to furnish the nation with colliers in wartime to take coal to the Pacific.

STRIKERS WILLING
TO COMPROMISE BY
INCREASE OF PAY

At a special meeting of the Carpenters and Joiners Union, No. 921, held Tuesday evening, it was unanimously voted to extend the thanks of the union to the Central Labor Union, and the other affiliated unions, for their loyal support both moral and financial.

The matter of the settlement of the strike having already been placed in the hands of the Conference Committee, said committee reported it advisable to settle for a twenty-five cent raise with union conditions as existing before this strike. Two contractors immediately agreed to these terms.

CONFERENCE COMMITTEE,
C and J. Union, No. 921
The original demands are for 41 cents an hour and 44 hours a week and Saturday half holiday.

SEATTLE COMPANY GETS CONTRACT.

The Seattle Construction and Drydock Company of Seattle, Wash., yesterday was the lowest bidder at \$181,893 for the construction of a naval submarine tender of 3250 tons. One of the proposals was unique in naval construction annals. The New London Ship and Engine Company of Groton, Conn., offered to install machinery of the internal combustion

type or engines of the automobile type which would burn crude coal oil. This company's bid was \$387,000. No other contractor has ever offered to install machinery of the internal combustion type in a vessel of the size of the proposed tender. The new vessel is to be named Bushnell.

KITTERY

Breezy Items From the Village
Across the River.

Kittery correspondent's telephone, 778-M; P. O. address, Box 303.

Memorial services over the body of the late C. Mildred Dunnell were held Tuesday afternoon at 2.30 o'clock from the Second Christian church, the large auditorium being filled to overflowing with mourning relatives and friends. The various organizations of which she was a member; were largely represented including York Rebekah Lodge, I. O. O. F., Pisconaquia Chapter O. E. S., Kittery Grange, the Phoebe Society, members of the class of '07, Trapeze Academy; the Sunday school and Christian Endeavor Society of the church. The Unitarian quartet of Portsmouth sang "Lead Kindly Light" and "Sometime We'll Understand" and Mrs. Oliver Priest beautifully rendered "Crossing the Bar." The services were in charge of Rev. John G. Dutton of Westerly, R. I., a former pastor of the church and a near friend of the family, and he was assisted by the present pastor Rev. Arnoldo Natino, both speaking words of comfort and hope to the bereaved.

The floral tributes also gave further testimony of the love held for Mildred by all her friends, and were very beautiful. The whole front of the auditorium was covered with flowers, while all the windows also held pieces which could not be placed elsewhere.

A young life has gone from us which will be sadly missed, and those who gazed upon her face for the last time could scarcely realize that she who until so very recently had been among us, had been called to her Heavenly home. Interment took place in the South cemetery, Portsmouth, by Undertaker O. W. Ham. The pall bearers were Messrs. Leon Robins, George Manson, Ellery Emery, and Nelson Webber.

Mrs. J. E. Paul and son, Howard of Government street are visitors in York today.

Whipple Lodge I. O. G. T., meets this evening at Grange Hall.

Mrs. Frank W. Call and daughter, Miss Olive of North Berwick are passing a few days with relatives and friends in town.

Mrs. Mabel Gardner of Lynn, Mass., was a visitor in town on Tuesday.

Walter Cotton of Boston passed Tuesday in town.

Mrs. John Hoodley and two children of Georgetown, Mass., were called here by the death of her niece, Miss Donnell.

Mr. and Mrs. Otto Roehlander of Pleasant street have arrived home from a two weeks visit to relatives in Airmira, N. Y.

BILL AND DUTCH AS AVIATORS

Bill and Dutch have entered into a combination to do some high flying this summer. Not in their automobiles, which at times have flown some what, but in a monoplane. They have informed their friends that they have secured a monoplane and as soon as they take a few lessons will witness the Sunset League games from the air. Bill says that he is so used to being thrown down, that the fall of a few hundred feet will not make any difference.

Just where they will try out their new machine is being kept a secret, but the boys are organizing a scouting corps who say they will be in on the ground floor.

FOREST FIRE
BREAKS OUT AGAIN

The forest fire at Kittery Point which destroyed so much wood and standing timber on Monday, broke out anew on Tuesday afternoon when the high northwest wind fanned the sparks into a conflagration. Several gangs of railroad section men were sent to the scene and by evening they had it under control.

The smoke of a big fire in the direction of York was seen yesterday and it was from a large fire in the woods in the Brixham district.

WORLD'S BIGGEST WHIRLPOOL

(Wide World Magazine)

Just before the junction of the Madre de Dios and the Inambari rivers the latter divides into two arms, with an island some two miles long in between. The right arm which is usually the safer for navigation, was at the time of our arrival impassable, owing to the recent and excessive drought that had caused the formation of perilous rapids. We had in consequence to take the wide left arm down which the main volume of the river was then flowing.

The reader can imagine the enormous force of water that was being shot into the Madre de Dios, when he realizes that the Inambari at its left arm junction was 300 yards wide, perhaps thirty feet deep and flowing at 6 knots an hour. This great mass of water met the Madre Dios, itself 400 yards wide here, in a right angle.

The current of the Inambari being faster than the Madre de Dios, the former river cut its way through the latter, right across to the farther bank. There the Inambari was thrown back and surged around in a huge circle 200 yards in diameter, to join up again with the water flowing to the bank. The whirlpool thus formed was one of the largest in the world. I have purposely used the past tense in this description, as the course of the Inambari is constantly changing near its mouth. The circles of seething water curled inward and downward, screw fashion, in their center which appeared as a great hole, at least 6 feet below the level on the outer rim.

Portsmouth, N. H., Wednesday, May 21, 1913.

The Progressive Party Surely Disintegrating.

It is decidedly impressive testimony which Robert Luce, former lieutenant-governor of the state, brings back from the Chicago conference. It was made up of progressive-minded republicans, led by Cummins of Iowa and Hadley of Missouri, and included that group of north-western insurgents whose activities led to the ultimate formation of the progressive party. Nearly all the men present were Roosevelt adherents a year ago now. Many of them followed him, after the conventions, into the new party.

South Dakota, it will be remembered, threw its electoral vote to Roosevelt. Its senators now say the state is at bottom republican. Mr. Luce found the men from North Dakota and Minnesota taking the same view. Three of the Michigan delegates to the conference were state senators who had been active in a campaign for highly "progressive" legislation. And, in securing it, they have effectually reunited the party in that state, so that, they say, the Bull Moose organization will no longer prove a factor there. The recent election returns support this view.

State Senator Troutman of Kansas reported that sixty-three local officers had recently signed a call for a conference on getting together. This has led to the issuance of an invitation for a state-wide gathering to be held on June 3, "for the purpose of considering and agreeing upon some plan for uniting the republicans and progressives of the state in an aggressive organization opposed to the democratic party."

Mr. Luce, by training and affiliations, is an exceptionally competent observer. He finds that the Roosevelt vote of November was chiefly one of protest against the methods of the last national conference. The great body of men who cast it are at heart republicans and anxious to resume standing as such, if they can only be assured of no repetition of objectionable methods of 1912.

It is curious significant that just about the same time Mr. Luce was saying this to the reporters our permanent candidate, Bird, was explaining to an audience that there was no truth in the reported disintegration of the progressive party. But his excuse only emphasized the accusation. All the signs, as recently noted in these columns, now point to the rapid obliteration of the third party movement. It is drying up and about to blow away. This is not a three-party country. The logic of the situation calls for a united opposition to the now dominant democracy.—Boston Herald.

The Appointment of Mr. Kivel.

The appointment and confirmation of John Kivel as a judge of the superior court is very pleasing to his many friends in this city. Mr. Kivel has held many offices, among them being those of county solicitor, police commissioner and state license commissioner. He has also been counsel for several large corporations. In all of these positions of trust Mr. Kivel has discharged the many duties in a very able and conservative manner and it is safe to predict that he will make a worthy successor to the late Judge John M. Mitchell, who was universally respected by both the bench and bar of our state.

For Our Navy Yard.

The visit of Assistant Secretary of the Navy Roosevelt to the Charlestown navy yard on Monday seems likely to bear fruit in the shape of an extension of work and a strengthening of the station all along the line. It is hinted that revenue cutters and supply ships will be built here and that more of the big battleships will be assigned to the yard for repairs.

This, we believe, is as it should be; well for the navy as for the men employed here. The Post has long maintained that instead of abandoning or greatly weakening the yards at Charlestown and at Portsmouth, the federal authorities should improve them, as for the best interests of the nation. Certainly nothing has happened of late to alter our conviction that this is the correct policy.—Boston Post.

"What's the Score?"

The whole country may now be said to be in the throes of base ball fever. Unlike any other fever, this one is good for mind and body, for it produces pleasure, not pain. Instead of "What's his temperature?" the question is "What's the score?" One season of base ball is much like another, but in several particulars the game is improving and gradually reaching a higher plane than ever. Base ball has become a serious business, well organized and excellently managed. Old methods of management have been superseded by better ones.—Boston Globe.

Muzzle Them!

Thirty-two St. Louis people were bitten by dogs in five consecutive days recently. "What is that old saying about the best friend of man?"—St. Louis Republic.

Joseph J. Ettor, I. W. W. Agitator, In Full Swing Before Strikers.

Photo by American Press Association.

One of the principal figures in recent labor disturbances, particularly in the eastern states, is Joseph J. Ettor, senior, strike organizer and agitator for the Industrial Workers of the World. Ettor first came into national prominence because of his connection with the textile workers' strike at Lawrence, Mass. He was one of three accused of causing a woman's murder, but was acquitted. Of late he has been active in the strike of silk workers at Paterson, N. J., and the barbers in New York city. This illustration shows Ettor addressing a crowd of strikers.

THE DAWN OF PEACE

Yes, on our brows we feel the breath of dawn, though in the night we wait;
An arrow is in the heart of Death,
A hand is in the doors of Fate.
The spirit that moved upon the deep is moving through the minds of men.
The nations feel it in their sleep.
A change has touched their dreams again.

Voices, confused, and faint arise,
Troubling their hearts from east and west.
A doubtful light is in their skies,
A gleam that will not let them rest.
The dawn, the dawn, is on the wing,
The air of change on every side.
Unhindered as the approach of spring,
Inevitable as the Hawthorne tide.

Have ye not heard it far and night,
The voice of France across the dark,
And all the Atlantic with one cry
Breathing those hopes of Europe? Dark
Then—let ye wait—until your word
Of cyclic without! Once again
Tell us he came to bring a sword,
Tell us he lived and died in vain.

Say that we dream! Our dreams
Have woven
Truths that outface the burning sun;
The lightnings that we dreamed have
Crown'd
Time, space, and linked all lands
In one
Dream! But their swift celestial
Fingers
Have knit the world with threads
Of steel.

On the remotest island fingers
Outside the world's great com-
monweal.
Tell us that eastings, sloth and fear
Are strong, then name them "com-
mon weal!"
Tell us that great rules everywhere,
Then ask the lie "experience!"
Yea after year, age after age,
Hans banded down thro' foot and
child,
For earth's divinest heritage
The dreams whereon old wisdom
smiled,
And the sea that covers them where
they lie.

—Alfred Noyes.

THE WHIP IS CRACKED.

Republican Members of Board of Registrars Legislated Out of Office.

In the New Hampshire senate on Tuesday, the bill relating to the board of registrars of Portsmouth was taken up and after considerable discussion was passed.

Senator Clough said that this bill ought not to pass because the people of Portsmouth elected a board of registrars and it ought not to be a case of the state government taking a hand in Portsmouth affairs. He said that it is proposed to put in office four demo-

crats and three progressives.

Senator Parsons said that he thought the senator from district No. 15 was acquainted with the doings in Portsmouth. He perhaps did not remember that in '95 all democrats, even wild clerics, were put out of office.

Senator Clough moved that it be indefinitely postponed, and on the vote, nay, Senators Hutchins, Gates, Reed, Gerry, Edes, Prentiss, Blackwood, Rogers, Tolford, Joyal, Farnsworth, Kennedy, Parsons, yea, Senators Wallace, Emerson, Thomas, Hennessey, Emerson, Clough, Chalmers, Coffey, Scammon, Chesley.

Senator Parsons moved that it be read the third time and passed at this time. Adopted.

When this bill was introduced in the house by Representative Moran, he stated that it was a purely partisan measure and it is very doubtful if a more partisan measure has been legislated through at the present session of the general court.

DANCE CRITICISM STIRS LONDON.

London, May 20.—Society matrons and maids were gazing today over the unvarnished criticism of the dancing seen in some of London's "best houses" by a letter writer to the Times, calling himself "A Peacock."

The letter complained that "The Peacock" was one of those matrons upon whom devolved the task of guiding girls through the London season, and she frankly referred to the turkey trot and the tango as the "horrors of the American and South American negro ball games." They are the "travesties on dancing," which, for the first time in the writer's life, she said, were being put to parties "more young men than are needed." The letter concludes:

"I would only ask hostesses to let us know what houses to avoid by indicating in some way on their invitation cards whether the turkey trot, the Boston (the beginning of the evil) and the tango will be permitted."

The local shoe industries are anxious to obtain more skilled help.

BRONCHIAL COUGHS

result from inflammation of the delicate bronchial tubes which clog with mucus—pneumonia easily follows.

SCOTT'S EMULSION works wonders in overcoming acute bronchitis: it stops the cough, checks the inflammation, and its curative, strengthening food-value distributes energy and power throughout the body.

NATION MAY MAKE ITS OWN ARMOR PLATE

Secretary of Navy Daniels Declares Manufacturers Make Exorbitant Charge.

Washington, May 20.—Plans for manufacturing armor plate for American warships in plants owned and operated by the government are being considered by the navy department. Secretary Daniels declared today that there was no such thing as competition between private manufacturers and that a government factory seemed to be the only solution of the problem. He added that he would not disturb the contracts let during the Taft administration by Secretary Meyer because no better bids could be expected than those already accepted.

Senator Ashurst of Arizona, who has been making a fight in the Senate for an investigation of armor plate manufacturers, recently charged that the government paid enormous profits to private plants, the contract prices in some instances being about double what the cost warranted.

"I am convinced," said Secretary Daniels, in his statement today, "that the United States pays too much for its armor plate, and the only way to get it cheaper would seem to be for the country to have its own plant, so that the outsiders may be forced to come down to a reasonable price. The competing concerns now get their figures very close together, within a fraction of a cent. It does not matter to them which one gets the contract, for they divide the profits. There is no competition."

The secretary said that he was still studying the problem, and that he had not decided on exactly what plan he would follow in securing full information on the subject, whether it would be by the appointment of a technical board or otherwise. He referred to the fact that Secretary Herbert, who held the navy portfolio during Cleveland's second administration, made a personal visit to England, France and Germany to investigate the question, and had reported the need, which was pointed out to him abroad, of having the government own its own plants.

Mr. Daniels said he would not go abroad himself, but he indicated that he might call on others to do this for him before he finally completed his plans.

NEBRASKA BILL.

If the question is asked why Big Scullie's Nine Big Shows are heralding a Wild West as an attraction this season, let this be the answer: The Great Caterer to the People's Welfare knows that variety is the nutmeg of existence. The times require "something different." Novelty is the keynote of happiness. Hence, Indians, cowboys and cowgirls (prettiest and chillest); the atmosphere of the forests.

And these, greatest of all, headed by Nebraska Bill. This King of the Wild-woods and Overlord of the Plains is "the real thing," too. Unlike many assumed wild ones that are faking around the country in dirty tents, presuming on gullibility of the public to pay themselves off as Indian-actors Nebraska Bill has a record of bravery, of Indian fighting, where fierce tomahawks swung and scalping knives gleamed, and the penalty of capture meant the fire and stake.

He has battled the redskins in their native haunts. He is a master of woodcraft; he is "the bravest of the brave." He is the genuine article, in fact.

He is in charge of the penitentiary and bird section of the Nine Big Shows. The Indians and wild west features he captures are real habitants of woods and forests. This feature of the 9-Big Shows will be shown in flags and on hippodrome track. This Wild West novelty is "the trimmings" of the Circus, Menagerie and Hippodrome—the created coloring of an interesting picture of magnificent realistic painting. Will visit this city on May 27.

RYE NEWS

The Jolly Old Farmers of Rye will conclude the round of delights afforded by their series of old fashioned dancing assemblies this evening in Rye town hall. Everyone is cordially invited to attend. Hoyt's orchestra of Portsmouth will furnish the music. Baldwin A. Hetch will cater. There will be late cars after the dance for Rye Beach and Portsmouth.

Mrs. N. P. Stines and family of State street, Portsmouth, are occupying their summer residence at West Rye.

A heavy frost was observed by many residents here several mornings during the past week.

LAUNCHED AT BATH.

Granddaughter of Rear Admiral Christen U. S. S. Cassin.

Bath, Me., May 20.—The United States torpedo destroyer, Cassin, the first 1000-ton destroyer to be constructed here, was launched today. She

took her maiden dip in 28 seconds, the launching being the quickest on record at this port.

The destroyer was christened with champagne by Miss Helen Cassin Currier of Washington, granddaughter of the late Rear Admiral Cassin.

The Cassin is a duplicate of the Cummings, which will go overboard early in July, and her contract price is \$1,615,000. A maximum speed of 30 knots an hour will be required at the official trials to be held next month. The destroyer will burn oil exclusively.

NO VACATION FOR MIDDIES

Violated the Regulations By Signing Petition

Annapolis, Md., May 20.—Punishment of a rather unusual nature was today meted out to 23 members of the third class at the naval academy by Superintendent Gibbons. The young men had signed a petition to the Secretary of the Navy asking that official to intercede for a classmate who had been found deficient in his conduct grades.

As their action was in violation of naval regulations, the offenders instead of enjoying the usual shore liberty during the summer cruise, are to undergo special instructions in the regulations. When they return to the academy after the cruise they are to be denied the usual summer vacation and will have to pass an examination in the subjects they have been studying during the cruise.

Secretary of the Navy Daniels, in referring to the matter to Superintendent Gibbons for action, severely censured the young men.

ROOSEVELT TO SPEND SUMMER IN ARIZONA

New York, May 20.—Colonel Roosevelt announced today that he expects to spend his vacation this summer in Arizona. He will leave here early in July, taking with him, two of his sons, and will hunt four or five weeks in the Southwest, most of the time in Arizona. The trip is to be purely a pleasure trip.

RAILROAD NOTES

The interstate commerce commission announces that in July, August and September last year total number of persons killed in railway accidents was 283 and injured 4598. This is an increase of 87 killed and 316 injured compared with the same months in 1912.

Cincinnati car strikes have been declared off; grievances will be arbitrated.

Eastern railroad trainmen will take a strike vote, following the recent refusal of managers to consider their 15 per cent wage advance demands.

The contract for constructing new shops of the Canadian Pacific railroad at North Bay, Ont., has been awarded. The new shops will cost \$350,000.

NOTICE.

KITTERY POINT**What Is Happening In the Harbor Town.**

The Willing Workers will meet all day Thursday at the home of Mrs. Jessie Johnson.

Martha V. B. Williams is able to be out after long confinement to her home by illness.

The same train on the York Harbor railroad which caused Monday's extensive woodland fire also started two other fires between Redell's Crossing and the Kittery Point station. It is said that an up grade on this section of the line caused the engine to emit more than the usual amount of red hot sparks, and during a large part of each year property owners in this part of the town are with good reason kept in a constant state of anxiety. It seems more than doubtful if the locomotives are equipped with any sort of device, intended to act as a spark arrester, but if they are, said device is a lamentable failure. No law is more needed than a stringent one compelling steam roads to cease this constant menace to life and property.

Large numbers from this part of the town attended the funeral of G. Mildred Donnell, at the Christian church in Kittery on Tuesday afternoon.

Mr. Shattuck has returned to his home in Lawrence, Mass., after visiting Mr. and Mrs. E. D. Manson.

Mrs. Frank Clarkson is visiting relatives in Lawrence and Haverhill, Mass.

Mr. and Mrs. Chester Pierce pleasantly entertained the Whist Club on Monday evening. Prizes were awarded as follows:

Ladies—

First—Mrs. Emma Amee.

Second—Mrs. Perley Tobey.

Third—Mrs. Henry Blake.

Gentlemen—

First—Chester Pierce.

Second—Miss Alice N. Patch.

The next meeting of the club will be held at the home of Mr. and Mrs. Perley Tobey.

The house of Victor Sawyer is being painted.

Mrs. Henry Marden is visiting friends in Massachusetts.

Mrs. Bertha Emery of Boston is the guest of Mr. and Mrs. Fred Libby.

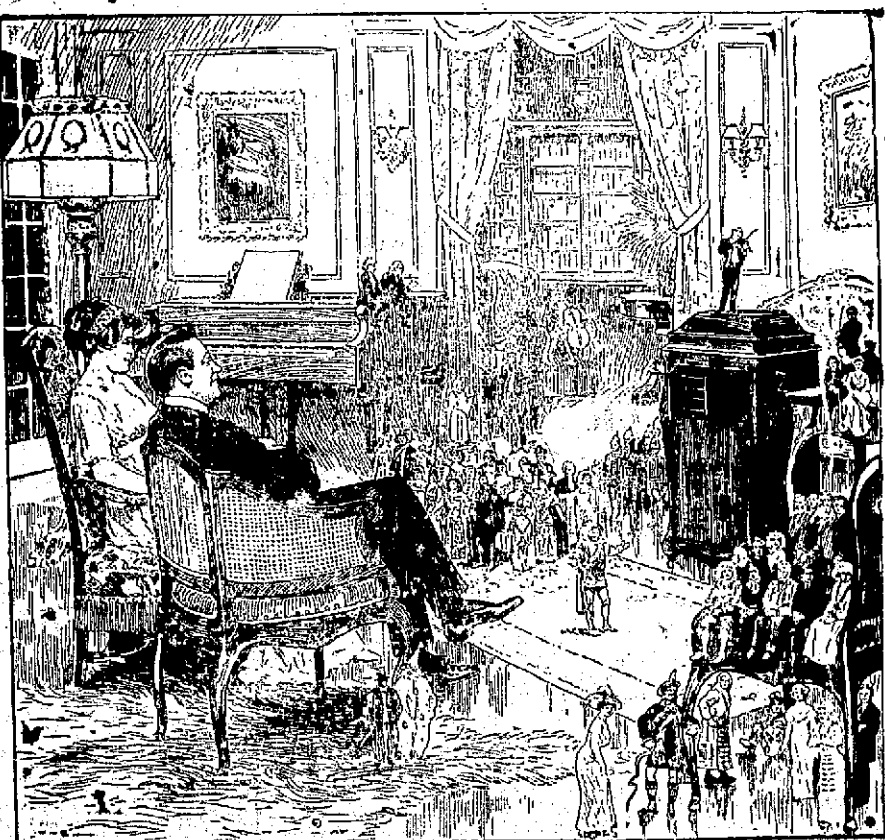

Hon. Horace Mitchell and Miss Lucy Williams were among those losing valuable standing timber in Monday's fire. Tuesday afternoon a revival of the blaze caused an alarm to be sounded at the A. S. R. R. power house, but an hour's work sufficed to extinguish it.

NORTH HAMPTON

The Mothers Club enjoyed a very

**Garden Hose

pleasant trip to Boston last Friday. Edward Marston of Walnut avenue is confined to his home with attack of measles.

Mrs. Justin B. Drake has returned home after enjoying a few days' visit in Salem, Mass., with Mr. and Mrs. Henry I. Ward, formerly of this town.

George P. Frost spent last Sunday at Kittery Point, Me.

It is reported that W. P. Crosby, M. D., of Portsmouth is to move into town and engage in his practice as a physician.

Hiram Tobey of Kittery Point was the guest of his daughter Mrs. Justin Drake a few days last week.

The Mothers Club will meet with Mrs. John Whelan on Thursday of this week.

Miss Mabel Lindsey has been entertaining friends from Boston.

Mrs. William Bridge and daughter Alice of Dover was the guest of her parents, Mr. and Mrs. Charles Barton and family last week.

Mrs. George D. Batchelder is entertaining her aunt, Mrs. Lawrence Otis of Andover.

The Social dance which was given in the Centennial hall last Saturday evening proved itself to be a very successful one. About sixty couples enjoyed the evening. Guests were present from Boston, Lynn, Beverly, Eliot, Exeter, Portsmouth, Hampton, Frye, Kingston and many nearby towns. Carter and Winn of Portsmouth furnished the most excellent music for the occasion.

The dance was given under the direction of Messrs. Maurice R. Wright, Harry Lane and George Moon.

Mr. and Mrs. J. Russell Fresh entertained friends from Boston over Sunday last.

The Rev. Mr. Boardman of Lowell, Mass., occupied the pulpit of the Congregational church last Sunday in exchange with Rev. Heber Harper, and gave a very fine sermon, taking for his text, "Become as Little Children." Matt. 18:3. The evening service was devoted to a union meeting of the Junior and Senior Christian Endeavor societies, and were followed with a praise service in charge of Rev. Mr. Boardman.

KITTERY

There will be a meeting of the Fireman's Association at Old Armory Hall at 7:30 o'clock this evening.

The Herald gives you the news while it is worth reading.

HAMPTON

The fire bells were rung on Sunday morning, calling the firemen to Charles Wood's on account of a chimney fire.

Mrs. W. T. Ross entertained the Monday club. A large number of guests were present.

Mr. Horace Batchelder was in town on Monday calling on his grandmother, Mrs. J. Batchelder.

Mr. Kellogg is spending a few days in Boston.

Mr. Victor Garland is working in South's drug store.

Mr. and Mrs. Reed and family of Whitman, Mass., were week-end guests at Hotel Whittier.

Mr. William H. Carter of Salem, Mass., has opened his cottage at the beach.

Mr. Albert Patterson was the week-end guest of Mrs. O. Stevens.

Many friends of Miss Amy Marston will be glad to welcome her back to Mrs. O. Stevens.

The Misses Fanny and Lillian Phillips were the guests of friends in Newmarket on Sunday.

The Congregational church has had the picture of Rev. Mr. Thayer presented to them through the kindness of Miss Adeline Thayer of Boston and Miss Mary C. T. Spaulding of Newburyport.

Merton James and Christopher S. Toppin spent Tuesday in Gloucester, Mass.

Mrs. Hattie Allen has been visiting friends in Haverhill, Mass.

On Friday Mrs. Walter Palmer entertained the N. T. G. club and their guests. Fancy cake and ice cream were served. The favors were won by Mrs. Delaney, Misses Blake, and Toppin.

Mrs. Brown, Mrs. Arthur Young, Mrs. Berry and Mrs. Cole.

"Oh Wednesday, there will be an entertainment for the benefit of the high school.

On Thursday the drama by the Daughters of America will be given. After the drama dancing will follow.

Mr. Amos Redman had charge of the dance given on Tuesday in the town hall.

Mr. E. Tilton entertained his father over Sunday.

Mr. W. Redman and family have arrived home from Florida, having spent the winter there.

GALLINGER PROTESTS

Sunday Gallinger entered a protest Monday against a moving picture film portraying the assassination of Lincoln. He said that the police ought to stop such an exhibition and

declared when asked to discuss it that "It is absolutely untalkable."

The local lodges of Odd Fellows are making a great sport in membership.

N. H. BEANE & CO.,

5 CONGRESS ST.,

NEW SIDE ENT. ANCE 22 HIGH ST.

LEGISLATURE IN LAST DAY'S SESSION

Get Through With Considerable Business--Outlook Good for Adjournment Today.

Concord, May 20.—The house this morning passed under a suspension of the rules, and adjourned at 11:30 a. m. among them one of \$48,253 in addition to the appropriations for the years ending August 31, 1914, and August 31, 1915, and one of \$25,000 for a state highway from Meredith to West Ossipee, the whole reaching a total of over \$90,000. The members' bill was held up while a charge of \$1000 to the law firm of Remick & Hollis was investigated, and the fifty-five

hour bill was recalled from the governor for technical changes and amendments. The bill providing for the election of delegates to national conventions by direct vote of the people was passed under a suspension of the rules.

Speaker Britton called the house to order at 11:10 o'clock. The senate came in for prayers by Chaplain Welch.

On motion of Mr. Ahern of Concord, house bill 90, the fifty-five hour

bill, was recalled from the governor for technical corrections.

Mr. Watson moved to reconsider in the vote whereby the house concurred in the senate amendments to the bill, and it was so voted, and on this further motion the house voted not to concur, and asked for a committee of conference. The speaker named Messrs. Gunnar of Concord, Great of Hollisford, and Bean of Belmont.

Leave of absence was granted Messrs. Whitman of Westmoreland, Underhill of Ashburn and Burbeck of Haverhill.

The appropriation committee reported favorably a bill carrying an appropriation of \$18,000 for the expenses of the legislature for the present year in addition to the sum provided by law. The bill was passed under a suspension of the rules, on motion of Mr. Ahern of Concord.

The committee on appropriations reported favorably an act making appropriations for the years ending August 31, 1914, and August 31, 1915, and carrying a total of \$40,000 in addition to the amount already appropriated. The bill is a supplementary budget bill made necessary by bills passed in the course of the session, and on motion of Mr. Ahern of Concord was read a third time and passed, under a suspension of the rules.

A house joint resolution providing for an extra appropriation of \$3000 for the Gettysburg celebration was reported favorably by the appropriations committee. It was read a third time and passed, under a suspension of the rules, on motion of Mr. Ahern of Concord. The appropriation is in addition to the \$10,000 already appropriated, and was made necessary by the unexpectedly large number of civil war veterans who have registered for the trip. A new bill was reported from the appropriation committee providing for a state highway from Meredith to West Ossipee. The bill carries an appropriation of \$25,000.

On motion of Mr. French of Moultonborough the bill was read a second and third time by its title, and passed under a suspension of the rules.

Mr. Stoddard of Portsmouth inquired as to what the item in the omnibus bill of \$1000 to the firm of Remick & Hollis was for. Mr. Ahern of Concord explained that it was for services before the railroad rate committee. Mr. Stoddard moved that the bill be laid on the table for further consideration. Mr. Lee of Concord said he agreed with Mr. Stoddard in his position. He believed the people had a right to know what services had been performed. The motion was carried and the bill was laid on the table.

The house joint resolution providing for the salaries of the justices of supreme and superior courts was passed under a suspension of the rules, on motion of Mr. Ahern of Concord.

Bills relating to the National Guard and providing that officers must have held commissions for six months before being entitled to the annual allowance for uniforms, and prohibit-

ing officers from incurring certain expenses, were passed under a suspension of the rules.

The house joint resolution providing for the payment for the daily papers furnished members during the session was passed under a suspension of the rules, on motion of Mr. Ahern of Concord.

The bill providing for the election of delegates to the national convention by direct primaries was read a third time by its title and passed under a suspension of the rules on motion of Mr. Cutter of Jaffrey.

Mr. Stoddard of Portsmouth moved that the item appropriating \$1000 for the law firm of Remick & Hollis be stricken from the bill. Mr. Morse of Newmarket wanted to know if the gentleman from Portsmouth was making any insinuations. Mr. Stoddard replied that he was not; if the gentleman from Newmarket had any to make, to go ahead. Mr. Morse allowed that that was not answering his question and was told by Mr. Stoddard that it was the answer he was to get.

Mr. Morse supported and approved the bill.

Mr. Stoddard said that as far as he knew there was no law firm of Remick & Hollis. He made no insinuations and was not playing politics, but asked that the matter be taken up and investigated further. If it was a just bill he had no objections to its being allowed.

Mr. Herrick of Northfield explained the action of the committee.

Mr. Ahern of Concord said that there were very few lawyers who were in a position to know anything about the rate question. He believed the claim a just one.

Mr. Perkins of Manchester opposed the amendment. He believed that the bill should be paid.

Mr. Dwyer of Lebanon said that the committee had been empowered to summon witnesses and employ counsel, and he believed the bill should be paid.

Mr. Watson of Nashua opposed Mr. Stoddard's amendment, saying that the matter had been carefully gone over by the committee and he believed that the bill should be allowed to remain in the bill; that if it was taken out it would, because of lack of time, jeopardize the passage of the entire bill. He did not believe that either of the two members of the bar would present an exorbitant bill.

Mr. Jones of Franklin moved the previous question and on a division called for by Mr. Stoddard the vote was manifestly in the negative.

Mr. Downing of Lincoln introduced an amendment striking out an item of \$300 for the payment of counsel in joint investigation in the Snow case and providing that they be paid at the rate of 20 cents an hour. The motion was lost and the bill passed under a suspension of the rules.

What was probably the largest hog in Maine was killed the other day at the Macomber farm near Augusta. The animal was two years old, measured nine feet in length and dressed 817 pounds.

CUP RACE IN SEPTEMBER

(Continued from page 1)

sally to adhere to the 75 foot length, and suggested that he race with a 90 footer under the present New York Yacht Club rules. Sir Thomas agreed and called that Shamrock IV would be the 90 footer unless the New York Yachtmen preferred that the race should be with the yachts of any other length.

Held to the Original Proposal

"In accepting the challenge the representatives of the New York Yacht Club have held Sir Thomas to the 75 footer named in his first challenge, evidently preferring to race with yachts of that length.

"I consider this decision highly satisfactory because it means a departure from races between extremely freakish yachts of 90 foot length and I consider that it means more frequent racing for the American cup in the future. It is now agreed that the contest will be with yachts of a wholesome type.

"The New York Yacht Club rule in fact, produces big bodied boats like those built under the international rules here."

Asked whether the British boat would be designed to carry the largest sail area possible, Mr. Nicholson replied:

"The sail area will be moderate compared with her size because under the rules governing the race excessive sail area will be heavily penalized."

Designer Nicholson added that he had prepared plans for a freak boat, but that he had already commenced work on new plans and hoped to launch the challenger in March 1914.

Sir Thomas Lipton has not selected the skipper, but he probably will be either Captain Edward Sycamore, commander of Shamrock IV or Captain Wringe. He expects to take the Shamrock IV over to tune up the challenger.

HENRY M. FLAGLER PASSES AWAY

West Palm Beach, Fla., May 20.—Henry M. Flagler, aged 88, capitalist and railroad magnate, died at his winter home here this morning after an illness of several weeks. Mr. Flagler recently fell down a flight of steps in a home and since of his advanced age his recovery had not been expected.

For the past few weeks Mr. Flagler had been losing practically all of his faculties and his death was momentarily expected. Several of his relatives and business associates had been summoned to his bedside.

The body will be buried in a mausoleum at St. Augustine, in the yard of the Memorial Church which he gave to the Presbyterians.

At Mr. Flagler's bedside were his son, Harry, who arrived yesterday from Europe and Rev. Dr. George Morgan, his pastor, who will conduct the funeral services.

NEGLIGEE RULES AND REGULATIONS

Here are a few do's and don'ts which will help the woman in doubt about the rules of etiquette which govern the formal negligee.

At 10 to be worn between the hours of 5 and 10 p. m. in one's own home. It must not be worn for breakfast or luncheon, no matter how informal these meals. They have their own particular form of negligee and the formal tea gown would be as out of place as the regulation evening gown worn then.

It may be worn for dinner even when there are one or two guests, and it may be worn in the presence of men friends, but it must never be worn at a dinner for which invitation have been sent out and it must never be worn when a strange man guest is present.

It may be worn at tea but not when more than half a dozen persons are present. It must never be worn to dinner at another's house, of course, and finally of course it must not be worn in a hotel dining room, even if the hotel is its wearer's home.

It is the ideal gown to wear when one wishes to be dressed attractively and yet wishes to be comfortable.

WHY WE SWING OUR ARMS

(Richmond Times Democrat)

If you watch people walk you will note that nearly all of them move their arms. If they walk slowly the movement of their arms is scarcely perceptible; if they walk rapidly their arms generally swing vigorously. Most people believe that this swinging of the arms is merely a natural swaying motion caused by the movement of the body, just as the tassels of an umbrella will swing when one is walking with it, but this is by no means the reason. The swinging of the arms is natural enough, but the nature of it dates back to those unknown days when man was a quadruped.

Of course when man was a four-

footed animal he walked with his arms, as well as his legs, and even today after the thousands upon thousands of generations that have passed since he assumed an upright position, every time he takes a step his arm moves a trifle, involuntarily as though desirous of taking a step, in its turn, just as it did when man then four footed, pranced up and down the earth.

Many people can move their arms a trifle, many can move their scalps and there is an abundance of hair scattered about or arms and legs, now useless, but still the remnants of the abundant coating of hair that once kept our antelope ancestors warm. By keeping our minds upon it we can hold our arms nearly motionless when walking, but let us hurry along, thinking of something else and our arms will swing, proclaiming our descent from ancestors who walked on four limbs that kept him together.

GREAT HELP IN KITCHEN

There is in most homes a great deal of domestic machinery, literally speaking that does not run smooth and might be greatly helped by a drop of oil. It is a good thing to keep an oil can on hand and with but a few minutes work everything one touches slides along noiselessly as if on magic wheels, for instance the egg beater, clothes wringer, kitchen clock, lawn mower, door hinges, actors which are on many articles of furniture, the meat chopper, etc.

Keep the sewing machine can always filled with oil and it will prove a great domestic help.

Cottolene at Cake-baking time

It is mighty hard to obtain uniform results in cake making—if you use butter or lard—because both of these products vary so in quality.

Cottolene is always uniform—always produces good results. With its use, you can count on a certain kind of cake being the same every time.

Cottolene sells at about the price of lard; and is so rich that one-third less is required than either butter or lard.

Cottolene is never sold in bulk—at ways in air-tight tin pails, which protect it from dirt, dust and odors. It is always uniform and dependable.

Paint Store, Daniel Street.

Quick Thinking Wins

Is your thinker fed right for prompt action?

At a dinner not long ago Thomas W. Lawson was talking on the subject of success. "Success is finance," said Mr. Lawson, "is due in a great measure to prompt action. The doubting, hesitating, Hamlet type of man had best keep out of finance. He is quite sure to be swamped."

—Page 420 "Everybody's"—March, '13.

It doesn't matter much whether it's finance, a baseball game, or winning promotion;

Keen Brains Count

Keep on with your "bacon and soggy pancake breakfast" if you choose, and stay in the Hamlet class, but if you really want to get ahead, just begin to live right.

A good start is to cut out the heavy, indigestible breakfast and have a dish of

Grape-Nuts

and Cream.

Analysis shows that Albumen, Water and Phosphate of Potash are the three principal essentials for building up one's thinking outfit—the Brain. You get the first two in everyday food, but the third, the vital organic Phosphate of Potash, is often lacking.

Grape-Nuts Food made of whole wheat and malted barley is rich in this vital, brain-building element.

A good, healthy working brain can be built up on right food. That's why Tens of Thousands of get-ahead Americans eat their regular morning dish of this distinctly American food.

"There's a Reason" for Grape-Nuts

Sold by grocers everywhere.

HOLDING UP THE PANAMA FORTIFICATIONS

Washington, May 20.—Owing to the failure of the sundry civil bill to become law at the last session of Congress, the appropriation for continuing work on the fortifications of the Isthmian Canal in its nearly exhausted state it will be necessary for the Ordnance Department to stop work on the manufacture of guns and cartridges previously authorized and the completion of the armament of the fortifications of the Canal will be seriously delayed unless immediate action is taken by Congress to pass the sundry civil bill or authorize continuation of the work under a joint resolution pending the passage of that bill. The status of the work pertaining to the seacoast armament for the fortifications of the Canal is as follows: Appropriated by the sundry civil act approved March 4, 1911, \$1,000,000; appropriated by the sundry civil act approved Aug. 24, 1912, \$500,000; total already appropriated, \$1,500,000.

In continuation of the same item: the pending sundry bill contains the following: "to be immediately available and remain available until expended" Armament of fortifications: For the purchase, manufacture, and test of seacoast cannon for coast defense, including their cartridges, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenal, to cost ultimately not to exceed \$2,500,000. The armament included in the approved limitation of \$2,500,000 for the completion of the project includes the following: Ten 14-inch guns with disappearing carriages, twenty-eight 12-inch mortars with carriages, twelve 6-inch guns with disappearing carriages, twenty 4.7-inch howitzers with mounts.

In a letter to the president of the Senate, under date of April 8, Secretary of War Garrison says: "Work is in progress on all except the 4.7-inch howitzers and mounts, except that contracts are pending for forgings for two of the 14-inch guns and four of the 12-inch mortars. These contracts, however, cannot be authorized until an additional appropriation shall have been made. The ten 14-inch disappearing carriages, sixteen of the 12-inch mortar carriages, and the twelve 6-inch disappearing carriages are under construction at the Watertown Arsenal. Eight of the 14-inch guns, twenty-four of the 12-inch mortars, and twelve 6-inch guns are under construction at the Watertown Arsenal. The present condition at

available funds is such that, including contract obligations already incurred, the funds will be practically exhausted in about one month, and unless further provision is made, it will be necessary to suspend work at these arsenals, and, beginning about May 1 next, to lay off a large number (probably 200 or more) of skilled workmen and employees, since the work herein referred to constitutes so large a part of that upon which these artisans are now engaged, and it will be impracticable to provide other work for these arsenals from other appropriations. There would also be additional expense involved in the suspension of this work and its resumption at a later period.

WHERE WILD FOWL BREED

On four little islands in Stump Lake, Nelson County, North Dakota, a Federal bird reserve about 350 miles northwest of Minneapolis, more than 11,000 young birds were hatched and reared in 1911, according to Albert Estlake, warden of the reserve. Mr. Estlake the birdman of North Dakota was instrumental in having the islands declared a reserve, and bird life has increased there since they were so made in 1905. From earliest territorial days however, they have been noted as a breeding ground, and it was the destruction of bird life that followed the visits of exploring parties that caused Mr. Estlake to make appeals for protection.

A tract embracing northern Dakota and a small part of Canada is said to be a greater bird breeding section than any other part of the whole world. This is the natural home of birds. They leave in the winter only because of their inability to secure food. They return north as soon as spring opens to rear their young in their natural home environment.

The Stump Lake reserve is the only place in the United States where the white winged scoter ducks breed, but on the little islands in the hatching may also be found mallard, pintail, gadwall, shoveler, lesser scaup, and blue winged teal ducks. Canadian wild ducks, California and ringed bill gulls, black and white terns, spotted hand pipers, double crested cormorants, and scores of other species of wild fowl say as writer in the New York sun.

When the nesting season is at its height Stump Lake is one of the most beautiful localities in the Northwest. Girded with green trees and fringed with reeds, rushes and marsh grasses among which the young ducks and goslings disport themselves, its ample bosom harbors every variety of aquatic fowl to which the Northwest lays claim.

Interesting indeed, is a trip to the bird reserve islands. As the skiff approaches the large California and ring-billed gulls swoop up from their nests and hover in snowy confusion over the marauder, while their raucous cries may be heard for some distance. Occasionally a mother gull will swoop down to the water to drive her overambitious offspring to a place of safety for the little, odd fuzzy, gray mottled infants, swim almost before their fluffy down is dried from the moisture of their recently divested shells.

As the boat grounds upon the gravelly beach, it is necessary to exercise great precaution to avoid treading on the nests of the gulls and terns, as numerous as they. The white terns nests are hollowed out in the pebbles, and closely adjoin one another, each containing two or three eggs. Disturbed from their brooding, the terns like fairy birds with their creamy plumage, slowly beating their wings, and graceful bodies, describe large circles in the air with their nursery, keeping an anxious eye upon the invaders.

Under foot at every step are scores of wise looking baby gulls, toddling about on uncertain legs, absolutely free from any manifestation of fear, and apparently pleased with the invasion of their territory, which permits them to enjoy heretofore forbidden exploring privileges.

On the first island perched in military array at the water's edge, a regiment of black funeral cormorants has

a colony of its own. The solemn looking birds take low winged flight at the approach of the strangers, leaving their ridiculous and uncanny appearing nestlings to the newcomer's mercy.

In addition to a breeding ground for wild fowl the Stump Lake bird reserve is a haven of rest for tens of thousands of ducks during the hunting season. As it is protected, the frightened birds are safe from slaughter as long as they remain there.

MADE WITNESS FOR THE STATE

(Continued from Page 1.)

ing to the Lawrence police station, Saturday morning June 20, 1913, and seeing Breen there when City Marshal O'Sullivan, and several Lawrence and Boston officers. As the result of Breen's statements, Vose said that he and other officers went to a cobble shop at 764 Lawrence street, conducted by Umberto di Prato, and searched for dynamite. None was found, the witness said, and he went back to the station. Breen was still there, Vose testified in reply to further questions, and told the officer that he was positive that dynamite was there. Another search was made again without result.

Again Breen insisted that he was right, so Inspector Vose went to the cobble shop a third time, and then found beneath a window all a parcel wrapped in a newspaper containing six sticks of dynamite and eight detonating caps. The latter, declared the witness, later were wrapped in a page torn from an undertaker's magazine called Sunnyside, the December number of which was not in Breen's shop, although earlier and later ones were found there.

Vose testified that when he reported the discovery of the dynamite to Breen the latter said: "I knew you would find it."

Despite objections by Atty. Hurlburt, the witness testified that the cobble shop and a Syrian's house, where dynamite was also found was situated in a district where mill operatives resided. Asked if he knew whether any of the strikers lived in the vicinity of the cobble shop, said the inspector, there was located a small printing shop where most of the I. W. W. printing was done.

Efforts on the part of the Dist. Atty. to show through the witness that the militia took strict measures with the strikers because of the first belief that they were responsible for the dynamite were stopped by Judge Crosby.

HOUSEHOLD HINTS

Most makers of coffee and tea take the trouble to rinse out their coffee and tea pots in boiling water before using so that they will be thoroughly heated. Some housewives go still further and heat the tea and coffee in the oven, before using, to bring out the full strength.

Always have ready a piece of blotting paper on which to lay fried oysters, caquettes, potato chips, doughnuts, etc., so that all superfluous fat may be absorbed by it, and the food made more palatable.

When dresses or shirt waists of pongee have been washed they should be allowed to dry thoroughly before being ironed. If ironed while damp, the material becomes as stiff as if it were starched.

There are always some places which when cleaning floors, one cannot reach with a large mop. For these corners and the places around radiators where so much dust collects one of the long handled dish mops will be found invaluable.

Business is rushing at the local stores. Read the announcements of the "live ones" in The Herald.

NEW PRESIDENT INAUGURATED IN CUBA

Havana, May 20.—With the inauguration today of General Mario G. Menocal as president in succession to President Jose Miguel Gomez and of Dr. Enrique Jose Varona, as vice president, the Cuban republic enters on a new phase of its existence in a spirit of high hopes for the preservation of peace and the establishment of the prosperity of the island. President Menocal on taking office contents himself with the declaration that he will devote all his energies to giving the country a clean business administration which will foster the industries of the island and develop its splendid resources, which will welcome foreign capital and immigration and maintain friendly relations with all nations, especially with the United States to which Cuba is so closely linked by bonds of mutual affection and interest.

General Mario G. Menocal was born in 1866 at Jaguay Grande, Matanzas province. His family soon removed to the United States where he was educated in the military college of Washington and then at Cornell University, where he graduated as a civil engineer. Upon leaving Cornell he went with his uncle, Anticito G. Menocal, chief of the engineering staff which made the survey of the Nicaragua Canal and worked with him. He returned to Cuba as an engineer for a French company. At Santa Cruz he joined the revolutionary forces as a private and rose rapidly until he became general of division. His military record was brilliant; he rendered great service to the Americans at the time of the Spanish education and General Ludlow, civil governor of Havana province, appointed him chief of police of Havana a position requiring at that time great tact and ability. He later managed the Chuparra sugar estate up to a few weeks before his inauguration.

Enrique Jose Varona, the vice president, was born in Camaguey April 13, 1840, was graduated from the University of Havana and is professor of philosophy and ethics in that institution. He was deputy to the Spanish Cortes from Camaguey province shortly after the Ten Years' War (1869-78). Under General Woods administration he was secretary of public instruction. He is an author, writer and newspaper man, and president of the Conservative party which won the recent elections.

OBITUARY

Alonso R. Rand.

Alonso R. Rand died Tuesday at his home on Lafayette road, aged 82 years.

Clergyman's Son Had Tuberculosis; Now Well

People who have Consumption, or are often filled with bright hopes of recovery, only to realize that the hope is but a temporary one. Consumption is dreaded by everyone. Those who had it and used Eckman's Alternative can testify to its beneficial effects. No one need doubt its power in plenty of evidence from live witnesses. Investigate the following—

"Gentlemen: Prior to Feb. 1908, I was located in Rochester, N. Y., suffering with tuberculosis, which developed into consumption. My physician gave me one month to live. I was having terrible night sweats and mid-day chills and losing flesh rapidly, having gone from 300 to 125 pounds. I coughed and raised constantly and became so weak that walking a few feet exhausted me. On my return home, my regular physician gave me little encouragement. My father who is a clergyman, heard of Eckman's Alternative and induced me to take it. The night sweats and chills disappeared, my cough became easier and gradually diminished and in a few days I developed an appetite, the first in months. I am now in perfect health, back to 325 lbs. I feel certain that I owe my life to Eckman's Alternative."

(Signed) E. H. COWLES, Pastor Presbyterian Church, Eckman's Alternative is effective in Bronchitis, Asthma, Croup, Whooping Cough, Lung Trouble, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet full of references and order to Eckman's Laboratory, Philadelphia, Pa. for more evidence. For sale by all leading druggists and in Portsmouth by Benjamin Green.

ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

Lieut. Whitehead Praised

Lieut. Walter E. Whitehead, a former gunner at the Portsmouth yard, now commanding the cruiser St. Louis in reserve at the Bremerton yard, has received a letter of commendation from Secretary Daniels of the navy on the excellent showing in the inspection on March 20 last, by the commander in chief of the Pacific reserve fleet, Mr. Daniels in his letter told Lieut. Whitehead to convey to the heads of the engineering and store keeping departments, the department's approval of their excellent condition.

Bids for Tender Opened

Bids have been opened at the navy department for the construction of submarine tender No. 2, which will be named the Bushnell. The Portsmouth Ship Building Co., of Quincy, Mass.; the New London Ship and Engine Building Co., of Groton, Conn., and the Seattle Construction and Dry Dock Company, of Seattle, Wash., submitted bids, the latter being lowest with \$918,833, for a vessel of 3,500 tons, with a speed of fourteen knots, to be completed in 21 months on bidder's design with machinery of steam turbine type with reduction gearing.

Naval Orders

Commodore Rear Admiral G. H. Willets, W. F. Worthington, W. N. Little.

Commander C. B. Morgan detached the Missouri May 26 to naval war college.

Commander P. H. Price to naval war college June 1.

Lieut. R. S. Gallaway, to navy yard Washington, D. C.

Chaplain T. R. Thompson, detached the New Hampshire June 6 to the Rhode.

Marine Corps Orders

Supt. J. M. Huey to marine barracks Annapolis.

Lieut. Lieut. R. B. Parham, detached marine barracks Annapolis to the New Hampshire.

First Lieut. W. C. Wise, Jr., detached marine barracks, Norfolk, to marine barracks, Honolulu.

Second Lieut. D. S. L. Brewster, detached marine barracks, Philadelphia, to marine barracks, Mare Island.

Vessel Movements

Arrived—Nashville at Santa Domingo City; Justin at San Diego, South Dakota at Mare Island, Maryland at San Francisco, Piscataway at Olongapo.

Sailed—Held from Norfolk for Trinidad; Wyoming Florida, Delaware, North Dakota, New Hampshire, South Carolina, Virginia, Georgia, New Jersey, Rhode Island and Kansas from Newport for Block Island Sound.

The Newark has been ordered placed out of commission Norfolk, Va.

Can Apply to Board of Labor.

Mechanics of the machinists trade who desire work at the Newport training station can get all information necessary relative to the same by applying to the board of labor office at Newport.

Looking for One Hundred Men.

The naval prison is daily expecting a detachment of marine guard from Guantanamo. About one hundred men.

Wednesday and Thursday

"Hearts of the First Empire"—Vita-graph.

A strong dramatic feature in two reels, showing how a young country girl conquered Napoleon and his court; depicted an abominable soldier in a fierce duel, and won a noble husband. Featuring Miss Edith Storey.

"In the Harem of Haxham"—Lubin. A very beautiful story told in a most convincing manner.

"Fighting Chaplain"—Kalem. A minister is accused of brutality because he declines to become aggressive. As chaplain of the First Volunteers the man of peace demonstrates his mettle and saves his comrades in time of panic. A spectacular Civil war drama.

"Cousin Jane"—S. and A. Is a sentimental comedy in which Jane plays a joke on her aunt, much to the disgust of her daughter.

"Gingers"—Vita-graph. Through love and self denial, a poor man brings happiness to himself and a little child. A story of great heart interest.

Mr. John Mitchell, Portsmouth's favorite tenor, will render the following selections, "Last Night was the End of the World" and "A Dream."

Matinee 2.30, Evening 7.00, Saturday evening 6.30.

are expected to be sent here via Philadelphia.

They Are Off.

A lively fight is reported to be in progress for the place of master mechanic in the machinery division to fill the place of Frank W. Wearin.

Building First Abutment

The construction firm of Snare & Triest have begun the work on the north end of the new bridge location at Kittery.

RUMORS OF SALE.

Report That United Machinery Co. Is to Acquire Plant of Button Company.

Persistent rumors have been in circulation in this city for the past few days to the effect that the Morley Button Company had been purchased by the United Shoe Machinery Company. It is a fact that the Morley Button Company, which is the sales company, will cease to exist on June 1, but this is merely a bookkeeping matter.

That there is some ground for the report is believed by those in a position to know. General Superintendent Harold H. Bennett knows nothing of the sale. He has heard the rumors but he doesn't think there will be any change in the management.

He informed the Herald that he had nothing to say in the way of confirming the story and so far as he knew there had been no change.

BY LOCAL TALENT.

Pleasing Entertainment Given at Association Hall on Tuesday Evening.

Association hall was filled with a representative audience Tuesday evening when a pleasing entertainment was presented consisting of plays and dances. The play, "How He Lied to His Husband," was presented by the following cast: Mr. Dr. Woodbury; Mrs. Miss Helen Laughlin; Her Husband, Mr. Washburn. All of the parts were assumed in a manner that elicited the hearty approval of the critical audience.

"Tynethal Balver" was presented by the following able cast: Hyacinth Halvey, Dr. Woodbury; Mr. Quirkie, Mr. Washburn; Candy Farrell, Mr. Wright; Sergeant Carden, Mr. Alford; Miss Joyce, Miss Woods; Mrs. Deane, Miss Stavers.

Mrs. Priethal Hufferer gave an exhibition of Hungarian, Oriental and classic dances that were well received.

FIREMEN'S FIELD DAY.

May Not Ask the City Government for Any Aid.

There is much speculation as to whether or not the proposed parade of the fire department will be held. While a few of the men are not anxious for the celebration it is understood that a great number favor it. The affair if brought to a head will be somewhat different than that of past years. The firemen who are showing such interest in the matter are talking of the following program: Short parade of the several companies in the forenoon, with sports of various kinds on the playgrounds in the afternoon, with good prizes for the winners in each contest. The plan is to dispense with the open house of the different companies and to serve a dinner under a large tent on the playgrounds.

In conversation with one of the officials of the department today he informed the Herald man that a majority favored it, and as to the expense to the city, he stated that the council may not be asked for a dollar and the department, as a body may stand for that part of it themselves. The matter will shortly be decided at another meeting.

POLICE BUTT IN.

Call a Halt on Charles Street Charade Party.

Jeannie Leslie, Walter McDonald, Mary Scott, and Annie Varney will face Judge Shires in the afternoon session of municipal court today as the winners of a charade party held on Charles street Tuesday night. The affair was in full swing shortly after midnight when officers Kelley, Philbrick and Condon called to take a look at the guests. They called a halt on the festivities and waited the quiet to the city refrigerator arriving at 12.45. They were all indignant over the interference of the cops, but were nevertheless hooked in the drunk column of the blotter by Captain Burke. McDonald had the honors of champion.

BAR SUGGESTIVE SONGS AT MOVIES

Chicago, May 20—Major M. L. C. Pankhouser, deputy superintendent of police, went to work vigorously to

day to enforce an ordinance against suggestive songs passed by the city council last night.

Major Pankhouser stated that he had already succeeded in obtaining the cooperation of moving picture people, who promised to withhold films from any theatre, permitting the singing of objectionable songs. He expects all the film supply houses to join in the movement and will next move against cafes and other places of amusement. The ordinance provides fines of from \$5 to \$100.

CONVICT TWO OF WILSON THREATS

Newark, N. J., May 20—Zeley Day-enport and Jacob Dunn, mountain wood choppers of Wharton, N. J., were convicted by a federal grand jury tonight of sending threatening letters to Woodrow Wilson, while he was President elect. In the case of Day-enport the jury recommended mercy.

The communication mailed to Mr. Wilson were received by his secretary, Joseph P. Tumulty, in May and November of last year, and demanded money in sums of \$1000 and \$5000 under a penalty of death.

Mr. Tumulty's confidential clerk, postal employees, secret service men, and handwriting experts were witnesses for the government.

PORTSMOUTH THEATRE PROGRAMME

There will be no Picture of Vaudeville Show at this theatre, today, Wednesday, on account of "The Rose of Wicklow." Thursday there will be a complete change of program.

COMRADES ATTENTION

U. S. W. V.—You are requested to be at N. B. O.P. Hall at 10 o'clock on May 25, to attend divine service with the Grand army at the North Church. Uniform and white gloves.

For Order Commander

"Generally debilitated for years, had sick headache, lacked ambition, was worn out, and all run down, Turlock Head Bitters made me a well woman."—Mrs. Charles Freilay, Moosup, Conn.

"At ease" and "at your best"

One of our "master tailor constructed" suits will put you "at ease," confident that you can only be favorably criticised from a clothes standpoint, and, therefore, you will feel and appear "at your best." The style of these suits is the style at home or abroad.

The "authority" of a "Stein-Block" or a "Kauppenheimer" suit cannot be questioned. A pleasure to show them.

HENRY PEYSER & SON
TOGS OF THE PERIOD.

INTERESTING NEWS

These are days of advancement. Advancement in Business, in Music and in Art. The latest claimant for public favor in the musical world is the **Emerson Player Piano**.

A demonstration at Montgomery's will convince you of its merits.

Always conservative in adopting new and untried features in its constructive policy, the old reliable Emerson Piano Company has waited until the pneumatic piano player has attained perfect perfection before allowing it to become a feature of its factory product. Now, however, it is possible to purchase the **STANDARD HOME PIANO OF AMERICA** with its peculiarly lovely tone and responsive action, fitted with a thoroughly reliable and proven player action at a moderate price. The ideal upright piano for any home is the **EMERSON PLAYER PIANO**. A superb manual or pneumatic instrument which all can play. You are most cordially invited to inspect it at

MONTGOMERY'S
